

Chaitali Jani

Business Analyst | Reporting & Process Improvement

Sudbury, ON | 437-766-3833

chaitalijani33@gmail.com | linkedin.com/in/janichaitali

Business analysis and software development professional based in Sudbury, with experience translating business needs into reporting requirements, Power BI dashboards and automated workflows. Supports operational decisions through project performance reporting, licence cost analysis and integrated business data. Combines client coordination and hands-on systems delivery with studies in Business Analytics and IT Business Analysis.

PROFESSIONAL EXPERIENCE

Software Developer & Marketing Advisor

Creative GOAT | Sudbury, ON | Jul 2025 - Present

- Developed executive Power BI dashboards embedded in Dynamics 365 to compare estimated and actual effort, billable and non-billable time, and overhead across customers, projects and work orders.
- Created Power BI reports and Excel spreadsheets for Microsoft cost management, project costing and time-entry management; tracked licence costs, assignments and utilization.
- Replaced manual licence tracking with automated data integration across Microsoft Partner Center, Microsoft Graph, Pax8 and Dataverse, synchronizing subscription and pricing information.
- Automated time-entry approvals and billable classification using Power Automate; implemented alerts at 80% of retainer usage and deactivation when available hours are exhausted.
- Coordinate project scope, tasks, timelines and client communication using Azure DevOps Boards and Dynamics 365 Project Operations to support delivery of business systems.
- Integrated website enquiries with Dynamics 365 Sales to capture leads and opportunities; manage Microsoft 365, Dynamics 365 and Azure licensing through Pax8.

Business Analyst & Web Developer (Co-op)

Creative GOAT | Ontario | May 2025 - Jun 2025

- Gathered and analysed business requirements for AI and Web3 projects, translating business needs into technical and reporting requirements.
- Analysed data, designed database structures and developed Power BI usage and performance reports for MailChain, an AI-powered email management concept with blockchain traceability.

Senior Web Developer

IT TO WEB | Anand, India | Jun 2020 - May 2023

- Developed a product website using PHP, Ajax, HTML5, CSS3 and MySQL; integrated customer chat, online requests and a WordPress blog.

Junior Web Developer

Saurabh Web Solution | Anand, India | Jan 2017 - May 2020

- Built responsive HTML/CSS interfaces and MySQL databases; implemented a secure administration area for news-portal content uploads.

TECHNICAL SKILLS

Data Analytics & Visualization: Power BI, Microsoft Excel, Tableau, ArcGIS Pro

Microsoft Dynamics 365 & Power Platform: Dynamics 365 Sales, Project Operations, Power Apps, Power Automate, Dataverse

Databases: MySQL, SQL Server
