

Chaitali Jani

Software Developer | Project Manager | Business Analyst | SEO

Sudbury, ON | chaitalijani33@gmail.com | linkedin.com/in/janichaitali

Software developer with experience in web development, Dynamics 365, Power Platform and Azure. Manages project scope, timelines and delivery while translating business requirements into practical solutions. Builds workflow automation, API integrations, Power BI dashboards and e-commerce applications. Supports SEO through website optimization, Google Analytics and Search Console to improve search visibility and inform digital marketing decisions.

PROFESSIONAL EXPERIENCE

Software Developer & Marketing Advisor

Creative GOAT | Sudbury, ON | Jul 2025 - Present

- Built licence automation integrating Microsoft Partner Center, Microsoft Graph and Pax8 with Dynamics 365/Dataverse, replacing manual licence tracking.
- Automated time-entry approvals, billable/non-billable calculations, 80% retainer alerts and deactivation when retainer hours are exhausted using Power Automate.
- Embedded Power BI dashboards in Dynamics 365 to report project performance, effort, overhead and licence costs, assignments and utilization.
- Plan and track scope, tasks, timelines and client communication in Azure DevOps Boards and D365 Project Operations; deploy solutions through CI/CD pipelines.
- Integrated WordPress/Elementor enquiry forms with Dynamics 365 Sales and launched a nopCommerce store on Azure App Service.
- Manage Microsoft 365, Dynamics 365 and Azure licensing through Pax8; lead SEO, analytics and social media for company and client websites.

Business Analyst & Web Developer (Co-op)

Creative GOAT | Ontario | May 2025 - Jun 2025

- Gathered requirements for AI and Web3 projects, designed database structures and built Power BI reports to track usage and performance.
- Contributed to MailChain, an AI-powered email management concept with blockchain-based traceability; developed reports and web features.

Senior Web Developer

IT TO WEB | Anand, India | Jun 2020 - May 2023

- Developed a product website using PHP, Ajax, HTML5, CSS3 and MySQL; integrated customer chat, online requests and a WordPress blog.

Junior Web Developer

Saurabh Web Solution | Anand, India | Jan 2017 - May 2020

- Built responsive HTML/CSS interfaces and MySQL databases; implemented a secure administration area for news-portal content uploads.
